INTRODUCTION

PLEASE READ THIS PAGE BEFORE USING THE INDEX

An * preceeding a name indicates that the name is questionable. Some pages had writing so faint that it is almost undecipherable. These, if copied, were preceeded by the *. Several pages in Belmont Countycould not be read, also some in Delaware and 3 Townships in Cuyahoga County.

The first two letters of the code represent the County.
The last two letters, or numbers, designate the Township or Ward within a city.

Example: HMCR = Hamilton County, Crosby Township.
HM11 = Hamilton County, Ward 11 in Cincinnati.

No County contained more than one city with ward designations. In 1860, fourteen counties had cities large enough to have ward designations:

Clark Co.	SPRINGFIELD	4 wards	Lucas Co.	TOLEDO	4 wards
Cuyahoga Co.	CLEVELAND	11 wards	Montgomery Co.	DAYTON	5 wards
Franklin Co.	COLUMBUS	5 wards	Muskingum Co.	ZANESVILLE	4 wards
Greene Co.	XENIA	4 wards	Pickaway Co.	CIRCLEVILLE	4 wards
Hamilton Co.	CINCINNATI	11 wards	Stark Co.	CANTON	4 wards
Jefferson Co.	STEUBENVILLE	4 wards	Washington Co.	MARIETTA	3 wards
Knox	MT. VERNON	5 wards	Wayne Co.	WOOSTER	4 wards

The number following the code refers to the page on the microfilm from which the names were copied. Stamped numbers were used for all but three rolls. No stamped numbers were found on Roll 953 of Cuyahoga County, only pencil numbers on every page. These were used. Gallia County was numbered with inked numbers on every page and Geauga County had pencil numbers on every page. These were used. All other numbers were stamped numbers which were on the extreme edge of alternate pages. Please search the page with the number and the page followingthat number for the name wanted.

Generally the writing was clear. A few census takers used fanciful capital letters and some were reluctant to spell out the name in detail, which resulted in some guess work on the part of the transcriber. These were preceeded by an *.

Phonetic spelling was quite common resulting in several variations in spelling of the same name. These were both used as is, as we have no way of knowing which way the family may have retained in using the name. Be alert to this and use every possible spelling in consulting the Index.

A map of Ohio is printed on the endpapers of these books to help the searcher find the location and full name of the Township designated by the code.

When the final printout was made it was discovered that about two columns of names had been punched one space over , resulting in these names being letter sorted and printed at the beginning of the Index. If you do not find your name in the proper place, check these names on page one.

ADAMS COUNTY
Roll No. 928

Franklin Twp.	ADFR	Oliver Twp.	ADOL
Green Twp.	ADGR	Scott Twp.	ADSC
Jefferson Twp.	ADJF	Sprigg Twp.	ADSP
Liberty Twp.	ADLB	Tiffin Twp	ADTI
